Multipurpose colour Masterbatch signifies that our Universal Masterbatch are formulated on a carrier material that is compatible with a wide range of thermoplastics. Our Masterbatch is supplied on the understanding that it will be assessed for suitability of application under local conditions in the intended use. Any information given or otherwise supplied is based upon our current knowledge and experience. However, there are many external factors beyond our control that may affect processing and application, therefore, this information is given without obligation or liability upon Colourhouse Masterbatch Limited, of any kind whatsoever.

Colours shown are Illustration only as the colour may vary depending on the users polymer and processing condition
Illustration of Colour may vary depending on users monitor resolution or quality of printer (if document is printed)
Colourhouse Recommend that customers should test under their own conditions to ensure that the products are suitable for their requirements. All of the Colourhouse Universal Masterbatch range is sold based on this understanding.

Technical data and safety data sheets may be requested via email - enquiries@colourhousemasterbatch.co.uk
100 Gram trial samples are available upon request,

Other Universal Masterbatch products are available such as Transparent and Edge glow Colours, Please refer to the processing guide below for full range, please note that these are not all stock colours and a general 5 day lead time may be required to manufacture the product.

Key

- * Suitable for use in all PVC except plasticized PVC
- ** Suitable for use in all PVC except tin stabilised PVC
- + Potential use at temperatures above those indicated
- Not suitable for use in polymer indicated
- # Contains dyestuffs which will migrate from PE/PP and all other polyolefins
